Heal Your Headache - David Buchholz M.D. 2002-08-12

A three-step program that puts headache sufferers back in control of their lives. "A must read for all individuals with migraine!"—Ronald J. Tusa, M.D., PH.D., Professor of Neurology and Otolaryngology, Dizziness and Balance Center, Emory University Based on the breakthrough understanding that virtually all headaches are forms of migraine—because migraine is not a specific type of headache, but the built-in mechanism that causes headaches of all kinds, along with neck stiffness, sinus congestion, dizziness, and other problems—Dr. Buchholz's *Heal Your Headache* offers a simple, transforming program. Step 1: Avoid the "Quick Fix." Too often painkillers only make matters worse because of the crippling complication known as rebound. Step 2: Reduce your triggers. The crux of the program: a migraine diet that eliminate the foods that push headache sufferers over the top. Step 3: Raise your threshold. When diet and other lifestyle changes aren't enough, preventive medication can help stay the course. That's it. In three steps, you can turn your headache problems around. Includes answers to questions like: What is a migraine anyway? Why do I get more headaches than most people? Of all the potential dietary triggers, what are the major culprits? Will my headaches get better when I get older? Why does the weather give me headaches? How long will it take me to get over rebound when I stop taking my Excedrin? Are my children doomed to suffer from headaches? Why do I wake up every morning with a headache? This title was updated in November 2021 to reflect the latest medical advice.
